

Let's get creative!
Summer Theater Workshop
August 8th – August 19th

PCDA's Summer Theater Workshop is a great way for your child to explore the world of drama, creativity and acting, have fun and learn new skills! This program is for children ages 7-17 years old and allows the group to create their own dramas and design *all* aspects of a performance including script, costumes, set design, sound, and videography. Exercises in improvisation help build skills in emotional communication and dramatic expression.

The curriculum provides opportunities to explore all the various aspects of the world of Theater including:

- Screen Writing
- Acting
- Scenery
- Costume Design
- Makeup
- Camera/Videography
- Directing and
- Music/Editing/Sound Effects

Each day focuses on two of these topics.

During this fun two-week program, children of all abilities will have a great time. The program is led by an experienced team of developmental specialists along with active members of the world of theater and drama. Hands-on activities, as well as presentations and demonstrations from various professionals in the realm of theater will be paired with a "topic of the day." These elements are then incorporated into their creative "final project" to help bring it to life. Their collaborative final project is presented on the last day of the workshop for all to enjoy!

Children of all abilities are welcome. If your child likes movies, plays and dramas, they will love our great team and our beautiful facility.

Come join the fun for the exciting two-week Summer Theater Workshop!
